EXPLANATION

The information in this Directory is arranged as follows: 1st, Name of individual or firm. 2nd., Wife's name in parenthesis if the individual be married. 3rd., The number of children in the family under twenty-one. (Example, 3ch means 3 children.) 4th., The individual's business or occupation. 5th., In parenthesis is the chief crop or specialty. (Example, grain, poultry, apples or potatoes in parenthesis means that these are the specialties of the individuals to whom they refer.) 6th., Refers to property upon which individual has residence. O H&L means owns house and lot. T H&L means tenant house and lot. O (figure a) designates number of acres in farm owned. T (figure a) designates number of acres in farm for which money rent is paid. WOS (figure a) designates number of acres worked on shares. 7th., Is the number of the rural delivery route and post office from which mail is received. 8th., H (figures) designates the highway on which individual has residence. (See map). Explanation, In Smith township after the name of Samuel Thomas appears H 14. Now refer to map and you will find that the road numbered 14 in Smith Township is the road upon which Mr. Thomas has his residence. By this plan you can locate any farm included in this book. The abbreviations appearing after the highway number pertain to the telephone which is B. T. for Bell telephone, Ind. T. for Independent telephone, etc.

American Agriculturist

Charles William Burkett Editor. Subscription Price \$1.00 a Year.

The one weekly agricultural NEWSpaper. First of all it is devoted to the NEWS of agriculture. It reports what is going on. It reveals underlying conditions that forecast the influence that will affect agriculture. It reports the changing conditions that confront the farmer and the various branches of his business, as well as his family and social interests.

Its original, exclusive and comprehensive crop reports are a feature of AMERICAN AGRICULTURIST. These reports are the accepted authorities among the producing, transportation, distributing, mercantile and consuming interests. The Orange Judd crop reports are considered more reliable than the government reports, while much more prompt and newsy.

We tell the news about crop conditions, market influences, etc., from one week to a month or more earlier than does the government. AMERICAN AGRICULTURIST is quoted more widely by the daily press and other newspapers than probably all other farm weeklies put together.

In addition to crop and market news, AMERICAN AGRICULTURIST reports weekly what is going on among the farmers, describes the doings of their organizations, and gives the news about whatever is happening in each and every branch of agriculture in the respective sections.

As an agricultural NEWSpaper, AMERICAN AGRICULTURIST therefore is unique.

None other of the farm press even attempts anything approaching our adequate crop reporting service. During the summer and autumn months, the Orange Judd reports have been the first, the most complete and the authoritative statement of all that was known of the situation from week to week pertaining to the staple crops: Wheat, corn, oats, cotton, hay, tobacco, potatoes, apples. Also all special crops, such as small fruits, vegetables, cranberries, onions, milk, butter, cheese, eggs, rye, barley, buckwheat, rice, etc. Our comprehensive inquiries reveal the relation of agriculture and other fundamental conditions to general business and all industry. Notable examples of this service appear in each issue.

Special Service to Advertisers and Subscribers

Orange Judd service bureau also performs a service to our subscribers and advertisers which may be likened to what Dun and Bradstreets do for their clients, among merchants, manufacturers and bankers.

We give our subscribers and readers SERVICE. We co-operate with them to enable our advertisers to better serve our subscribers and readers, and thus make the advertising columns of AMERICAN AGRICULTURIST of larger usefulness from month to month and year to year to each and every subscriber, reader and advertiser.

The publisher executes a bond of confidence with each subscriber in which we guarantee the reliability of each advertiser and advertisement admitted to AMERICAN AGRICULTURIST.

We seek to build up agriculture, to promote rural life, to foster legitimate business and to insure general prosperity. We strive to build up instead of tear down.

The Standard Authority

upon the technique of agriculture and home interests, AMERICAN AGRICULTURIST is preserved for reference and study as the standard authority upon the best methods of doing the various operations on the farm and in the home.

It constitutes a technical magazine of agriculture, a weekly authoritative encyclopedia of all branches of farming and of home interests.

Most Carefully Read

Our subscribers and their folks eagerly wait the coming of AMERICAN AGRICULTURIST, to get its news in all phases of agriculture, its crop reports, its market forecast, its price quotations.

They study it for reliable and authoritative information upon the technique of work on the farm or in the home.

They preserve it as the standard authority for constant reference.

YOUR EYES

should have the best of care. That is why you should have them examined by me.

I MAKE A SPECIALTY OF ONE THING, FITTING GLASSES THAT I
GUARANTEE

I make all glasses purchased of me, therefore you can have your glasses the
same day I examine your eyes.

"VISIBLE" construction as applied to New Process Gas Ranges means ECONOMY and GREATER efficiency.

Take the first—ECONOMY. The distribution of heat in the oven is INSTANTANEOUS, which saves you 10 or 15 minutes of gas generally used to get the ordinary oven hot enough to bake.

Starting from a cold oven and USING LESS FIRE THAN ANY OTHER MAKE OF STOVE, perfect results are obtained in from 30% to 50% LESS TIME—due to this instant action.

The fire from the front "arm" of the burner is directly behind a large mica opening in the oven door frame, can be observed from any position in front of the stove and can be regulated without opening the door. This entirely eliminates—

LOSS OF HEAT (when door is opened)
VARIATION IN TEMPERATURE AND—
JARRING WHICH IS DETRIMENTAL
TO FINE BAKING.

These Ovens Heat Instantly and Cool off Quickly. No Waste of Heat Coming or Going.

The Most Successful Farmer

is the one who is the most particular as to the quality of his machinery, stock, seeds, working methods, etc., and, who sees that only the finest produce goes to his trade.

We cater to this class of farmer. That's why we offer Drug Store Goods of superior quality. Not alone drugs, for you'll find here a well stocked store of goods of national reputation—Kodaks and Kodak Supplies, Toilet Goods, Brushes, Combs, Rubber Goods, Sherwin-Williams Paints and Insecticides, Conkey's Poultry Remedies, etc. Come in and get acquainted.

It is so easy to BANK BY MAIL these days that every one should have an account with a GOOD BANK.

Just mail your checks (properly endorsed) to us as you receive them, with brief instructions as to how you wish the account opened, and we will do the rest.

And think of the advantages of paying by check—No cash to lose out of your pockets—No disputes on account of lost receipts—The prestige of banking with a GOOD BANK!

And as to security what better can be offered than our capital of \$200,000.00 and Surplus of \$1,500,000.00—and more even than that, the DIRECTORATE that could in 25 years, by liberal but conservative banking, build up such a surplus.
